TASMANIAN TIGER *Reference Guide – Canada*
THE PROS' EQUIPMENT

Tasmanian Tiger® is a leading global supplier of premium professional Military, Tactical, and Police Equipment. Founded by Tatonka GmbH in 1999. Tasmanian Tiger® has redefined the meaning of quality through its commitment to functional design detail, a rigorous pre production testing process, and the determination to produce only the finest products. All Tasmanian Tiger® products are made using the best quality materials that are available, and designed so that every detail adds to the functionality. Beginning with a prototype, the development of the products is based on user's specific needs and requirements. Only when the comprehensive product testing process is complete - and we believe we have created the best possible product with the most functionality possible - do we move to production. Tasmanian Tiger® products are manufactured in our own production facilities. This ensures that the high level of quality construction we require is never in question. There are no sub-contractors, and there are no excuses. Every step in the production process, from purchasing material, to cutting, and throughout manufacturing is precisely defined and checked regularly for quality control. In addition, independent test centers are utilized to make certain that we meet or exceed all international standards. In addition to our high manufacturing standards, we are proud of the excellent social conditions at our factories. Like no other company, we have an OPEN FACTORY program, where you can visit our factory on any Friday, to see our highly skilled production team in action.

You can rely on Tasmanian Tiger® products - anywhere, any time.

TT MODULAR MEDIC COMBAT PACK 18 FIRST AID BACKPACK

TT-7490

Color:	TT-7490-040	BLACK	
	TT-7490-331	OLIVE	
	TT-7490-346	COYOTE BROWN	

Size / Volume: 46 x 25 x 17 cm / 18 l

Weight: 1.93 kg

Material: CORDURA® 500 den

Tactical emergency backpack with all-round zipper, opening to the side and with robust handles on three sides. The TT Modular Combat Pack 18 has three front pockets with different internal compartments for quick access to materials. They are labeled with hook-and-loop strips including a snap light insert. There are 2 attachments for tourniquets on each side. The backpack has a full circumferential zipper and folds open to the side. The compact shape when open allows clear access to the materials and quick removal. The main compartment is equipped with 2 removable panels made of lightweight, sturdy Tegriss® material, which can be equipped individually. It also has removable transparent pouches with hook-and-loop strips and a glow-in-the-dark insert for color coding, a removable IV bag pouch and a marked insert pocket for patient cards. There is a compression bag for a rescue sling at the bottom of the backpack. 2 sturdy handles on the sides are used to transport the wounded out of the danger zone.

[1] Padded Back Carrying System [2] Stowable, padded and removable shoulder straps [3] 2 carrying handles for hanging the backpack vertically [4] Handle [5] Handles for transporting the wounded [6] 3 front pockets with organizer, mesh pockets and elastic fastenings [7] Scissors bag [8] Tegriss 12 layers [9] Can be carried horizontally or vertically [10] Removable SRPP panel (23x13.5 cm), Laser-cut hole and slot pattern for bungee cord fixation and hook-and-loop fastening [11] Removable SRPP panel (23x26 cm), Laser-cut hole and slot pattern for bungee cord attachment and hook-and-loop fastening [12] Loops to hang the Medic Pack horizontally when open [13] Compression bag attached to the bottom for a rescue sling [14] Lateral laser-cuts for tourniquet attachment [15] Transparent pouches with snap light insert [16] Hook-and-loop patches on the front pockets (fleece) with snap light insert [17] MOLLE hook-and-loop on the inside for limitless modularity [18] Removable infusion bag 240 x 215 x 75 mm [19] Including adapter for fixation on plate carriers

TT BASE PACK TOP LOAD 30 BACKPACK 30 L

Weight: 1,94 kg

Material: CORDURA® 700 den
CORDURA® 500 den (MC)

Modular mission backpack with 30 liter volume and adjustable Y2 Carrying System. Despite its 30-liter volume, the TT Modular Pack 30 SL offers a very wide range of back length adjustment and is therefore suitable for both short and very tall people (SL = short to long). The equipment with a MOLLE hook-and-loop surface on the inside and MOLLE in laser-cut design on the outside allows for individual customization and expansion. The backpack is supplied with 2 hook-and-loop-fastened inner pockets. The side compression is removable and can be threaded to block the zipper.

[1] Ergonomically padded back with aluminum support elements [2] Y2 Carrying System [3] Length-adjustable shoulder straps [4] Padded hip fins with zippered pockets, removable with hook-and-loop [5] Individually adjustable side compression [6] Removable side compression [7] Lid pocket [8] Lid pocket with small organizer [9] Small mesh pockets inside, for storage of small parts such as batteries, etc [10] Additional flat zip pocket on the front [11] Zigzag rubber lacing [12] Daisy chain on the front [13] Antenna ports into the main compartment [14] Detachable rear panel with aluminium rail (can be shaped individually) [15] Hook-and-loop surface (loop) for patches etc. [16] Laser-cut MOLLE system [17] MOLLE hook-and-loop on the inside for limitless modularity [18] Front with MOLLE system. Width: 4 Molle loops, length: 5 Molle loops [19] Sides with MOLLE system. Width: 4 Molle loops, length: 7 Molle loops (1 interruption) [20] Incl. 2 hook-and-loop accessory pouches [21] Inner pockets with zips

Weight: 2,33 kg

Material: CORDURA® 700 den
CORDURA® 500 den (MC)

Large escape and survival backpack with versatile organization options. The TT Modular Grab Pack 30 offers 30 liters of volume and 2 large, fully opening compartments. The front compartment is equipped with 4 hook-and-looped zippered pouches of different sizes, and there are flat organizer pockets in the lid. The back wall of the rear compartment features a large hook-and-loop surface and 2 MOLLE strips for individual customization. Documents, for example, can be stowed in the flat front pockets. The backpack has a padded carrying system that can be adjusted to your own back length. Shoulder straps and waist belt can be removed, for example when the backpack is stowed in vehicles.

[1] Y2 Plus Carrying System [2] Fully detachable shoulder straps [3] Height-adjustable chest belt [4] Detachable, adjustable length waist belt with pin buckle [5] 3 handles [6] Hydration system compatible [7] Both compartments can be opened completely thanks to the all-round zipper [8] 2 MOLLE rows in the rear compartment [9] 2 front compartments with zipper [10] Organizer with 4 flat transparent zipped pockets in the lid of the front compartment [11] Hanging loop [12] Daisy chain on the front [13] 2-chamber design with 2 large compartments [14] Large hook-and-loop surfaces in both compartments for attaching hook-and-loop pouches [15] Loops with MOLLE spacing (4 / 6) on the front for attaching additional pouches [16] Adjustable strap with buckle to temporarily close the rear compartment when the backpack is open and suspended [17] Reversible rain cover with marker system included [18] 4 removable hook-and-loop pouches with transparent lid in the front compartment [19] Hook-and-loop surface (loop) for patches etc. [20] MOLLE loops on the base

TT BASE PACK 60 FO

BACKPACK 60 L -75 L

TT-8846

Color:	TT-8846-040	BLACK	
	TT-8846-331	OLIVE	
	TT-8846-346	COYOTE BROWN	

Size / Volume: 77 x 31 x 23 cm / 60 l

Weight: 3,08 kg

Material: CORDURA® 700 den

Long-range mission backpack with modular expansion options. The TT Base Pack 60 FO is the 4th size of the basic mission pack from Tasmanian Tiger. As a special feature, it has a large front opening (FO = front opening). The lid is height-adjustable and removable; when used without the lid, the backpack is closed with the rolled snow guard. The volume can thus be increased by approx. 15 liters. The front and sides are fitted with MOLLE, the hip belt can be removed and used separately as a Warrior Belt. The carrying system is based on the V2 Plus configuration.

[1] V2 Plus Carrying System [2] Divided main and bottom compartments [3] Fixation for hiking poles or ice axes [4] Roll-top snow guard (without lid) can be used in 2 locking positions [5] Volume expandable from 60 l to 75 l thanks to roll-top snow guard [6] Height-adjustable chest belt [7] Removable, padded hip belt [8] Pull-forward hip belt, combined with classic front adjustment [9] Side compression straps [10] Compression around perimeter of base [11] Handle on the frontside [12] Lid with gear loops [13] Easy-access pocket on top of lid [14] Height-adjustable, detachable lid [15] Hydration system compatible [16] Large front opening for easy access [17] Gear loops [18] Antenna ports into the main compartment [19] Hip belt can be used separately as a Warrior Belt [20] Lid with MOLLE system: Width: 6 Molle loops, length: 4 Molle loops [21] Front and sides with MOLLE system. Sides: Width: 5 MOLLE loops, length: 9 MOLLE loops [22] Front with MOLLE system: Width 6 Molle loops, length 9 Molle loops

BACKPACKS ACCESSORIES
